STAMPING AND PRINTING TECHNIQUE WORKSHOP 3

Stamping and Printing technique workshop

WORKSHOP PROPOSAL

This workshop explores printmaking and stamping processes.

It is a good art activity for all skill levels, developing creativity, self-recognition, symbology and different concepts to learn and work.

The aim of this workshop is the portrait in relation the face within the body and the environment. A graphic description that goes from the idea of the micro to the macro or the concept of order and disorder.

BASIC MATERIAL

Ink pads: Versafine ink and Memento ink

Lefranc & Bourgeois Aqualac lino block printing ink

Cutter

Scissors

Lino cutters

Ink roller

Blue carving Factis or Speedball

Paper

EVA foam/rubber

TECHNIQUES PERFORMED

Stencil technique:

It is the creation of a positive image out of a negative structure: when paint is applied through the cut areas to the surface beneath, an image is formed. The stencil technique is a great way to create reproducible patterns of identical symbols, letters or shapes.

Stamp technique:

Rubber stamping, also called stamping, is a craft in which some type of ink made of dye or pigment is applied to an image or pattern that has been carved, molded, laser engraved or vulcanized, onto a sheet of rubber.

This metode is a relief process in which knives and other tools are used to carve a design into the surface of a rubber block. The raised areas that remain after the block has been cut are inked and printed, while the recessed areas that are cut away do not retain ink, and will remain blank in the final print.
